Summary

I am a dedicated and aspiring Front-end Developer with one year of professional experience at For Better Future Software House. I am proficient in developing web pages and online stores, specializing in React and utilizing additional technologies such as Typescript and Gatsby to enhance project functionality. Demonstrated versatility by successfully creating an online store using Magento 2. I acquired valuable experience as a freelance developer by delivering two one-page websites (Landing Pages) before joining the company. I am committed to staying abreast of industry trends and continually expanding my skills to contribute effectively to dynamic development projects.

Work Experience

Freelancer

October 2022 - February 2023

Project: "Trip" (Landing Page) (10/2022 - 12/2022)

Project: "Restaurant" (Landing Page) (12/2022 - 2/2023)

I used technology: CSS, StyledComponents, React, TypeScript

For Better Future Soft House

February 2023 - Present

I specialize in React and work on web pages and online stores. I used design Figma.

- Online store project.

I used Magento 2, HTML, Less I did footer, blog, changed styles, changed photos, added products to the store using files csv (02/2023-05/2023)

- Project Recruitment website

I used React, TypeScript. Created icon components. (05/2023-06/2023)

- Project IT Company website

I used CSS, StyledComponents, React, TypeScript, and Gatsby. I made components and styles. I created a footer, banner, header, button, tooltip menu, drop down menu, flipping cards, carousel slider, and carousel with reviews. Also, I created basic components, such as a container and theme. (06/2023...)
